

ARTHUR PRODUCTS CO.

FILLING SOLUTIONS

1-800-322-0510 • WWW.ARTHURPRODUCTS.COM

Manufacturer of Custom Vent Tubes for Bottle Filler Machines

Arthur Products can manufacture nearly limitless configurations of engineered vent/filler tubes – custom designed to fit any liquid filler, for any size operation and any style bottle or container.

A key advantage to working with Arthur Products is that we collaborate with every customer on an individual basis. This allows you, the customer, and Arthur Products to customize a vent/filling tube to optimize the process on your filling machine.

Our filling tubes are manufactured from food grade stainless steel or engineered plastics, which are FDA-compliant. We support customers worldwide, from small to large plants and slow to high-speed bottling operations.
